

## IT Operation Management Training Programme

**This unique training programme aims to give IT banking professionals a concise introduction to the concepts surrounding the Avaloq Banking System and its technical environment.**

Orbium Training Services helps empower your team members in Avaloq operations, system support and security management. That way, you can ensure your Avaloq installation runs smoothly and efficiently 24/7. Our courses cover the following areas

- Avaloq Operation
- Avaloq Security

The courses offer an innovative approach to managing your Avaloq IT operations, allowing your IT department to

- Get a better understanding of Avaloq internal operations
- Assume first level service responsibility
- Increase IT efficiency
- Mitigate operational and security risks
- Improve the service delivery to the core business

These courses have been conceived and developed by our most senior consultants, based on their real-life experience of production scenarios, use cases and Avaloq best practices. With Orbium Training Services, we aim to share our expertise with you, giving you the Avaloq skills necessary to make your business more efficient, secure and profitable.

For more information or course registration please visit our website's training section.
