

The text "360° Careers" is overlaid on a black and white photograph of a large, modern train station with a high, arched glass and steel roof. The station is filled with people and has various signs and displays. The text is in a large, white, sans-serif font.

Recruiting Talent and Developing Potential

Orbium is a fast growing consulting firm with an exclusive focus on the financial services industry. We support our clients in leading them through their business and technical challenges by sharing our profound business and IT knowledge. We have offices in Geneva, London, Luxembourg, Singapore and Zurich. To strengthen our team in London, we are looking for:

Technical Consultants

After an initial training period on the Avaloq Banking System, you will join a project team and work hand in hand with our clients to help them implement the system.

Your main responsibilities

- Implementation of the Avaloq Banking System incl. writing technical and/or business specifications
- Parameterising and customising various business modules
- Enhancing overall concepts, evaluating business impacts and training end-users

Your qualifications

- University degree or equivalent in engineering
- A practical knowledge of relational databases (ideally Oracle) and/or programming would be an asset
- 1 to 2 years of work experience, ideally in consulting, IT or with banking or financial applications
- Willingness to work and travel in the UK and internationally
- Excellent interpersonal and communication skills with a good command of written and spoken English, German and/or French would be an asset.

We offer you

Diversified and challenging assignments, exposure to top-tier international banks, possibilities to develop multi-disciplinary IT / business skills, a competitive compensation package and the unique opportunity of being part of a fast growing and dynamic consultancy. If you are interested in a new challenge within a young and very motivated team, please send your complete application to career@orbium.com.
